

What Is Claimed Is:

1 1. An inflatable product including:
2 an inflatable body;
3 a socket built in the inflatable body;
4 an electric pump, including a pump body, connected to
5 the socket to pump the inflatable body, wherein the pump
6 body is wholly or partially located in the socket; and
7 a connector provided at a predetermined position of the
8 electric pump for connecting an external power to actuate
9 the electric pump.

1 2. An inflatable product including:
2 an inflatable body;
3 a socket built in the inflatable body; and
4 an electric pump, including a pump body, connected to
5 the socket to pump the inflatable body, wherein the pump
6 body is wholly or partially located in the socket.

1 3. An inflatable product as claimed in claim 2, further
2 including at least one battery disposed in the electric pump
3 to supply the electric pump with power.

1 4. An inflatable product as claimed in claim 3, wherein
2 the at least one battery is rechargeable and is electrically
3 connected to an external power so that the at least one
4 battery can be charged by the external power.

1 5. An inflatable product as claimed in claim 2, further
2 including a switch connected to the electric pump to actuate
3 the electric pump.

1 6. An inflatable product as claimed in claim 5, further
2 including a waterproof layer covering the switch to protect
3 the switch from water.
